

DECORATIVE MESH

CONTENTS

Art curtain	01-02
Chainlink mesh curtain	03-04
V-shaped curtain	05-06
Metal ring mesh	07-08
Metal woven mesh	09-22
Metal wall covering	23-26
Aluminum mesh cloth	27-30
Punching art mesh	31-34
Expanded metal mesh	35-38
Steel cable mesh	39-40

01 ONE

ART CURTAIN

Art curtain, made of high quality aluminum alloy material, after coloring treatment, with corrosion resistance, high temperature resistance, wear resistance, light weight, easy to install and other advantages. Size, color and pattern can be customized. It is widely used in ceiling, lighting, partition, screen, curtains and other indoor and outdoor decoration.

YESON

02 TWO CHAINLINK MESH CURTAIN

Chainlink mesh curtain, using high quality aluminum alloy wire, stainless steel wire, or low carbon steel wire spiral woven. The surface has been polished or painted, with fire resistance, high temperature resistance, non-fading, good sagging, free stretching and other advantages.

Material, mesh, size, color and pattern can be customized. The maximum height can be up to 6 meters, any width can be done.

It is widely used in ceiling, lighting, partition, screen, curtains and other indoor and outdoor decoration.

YESON

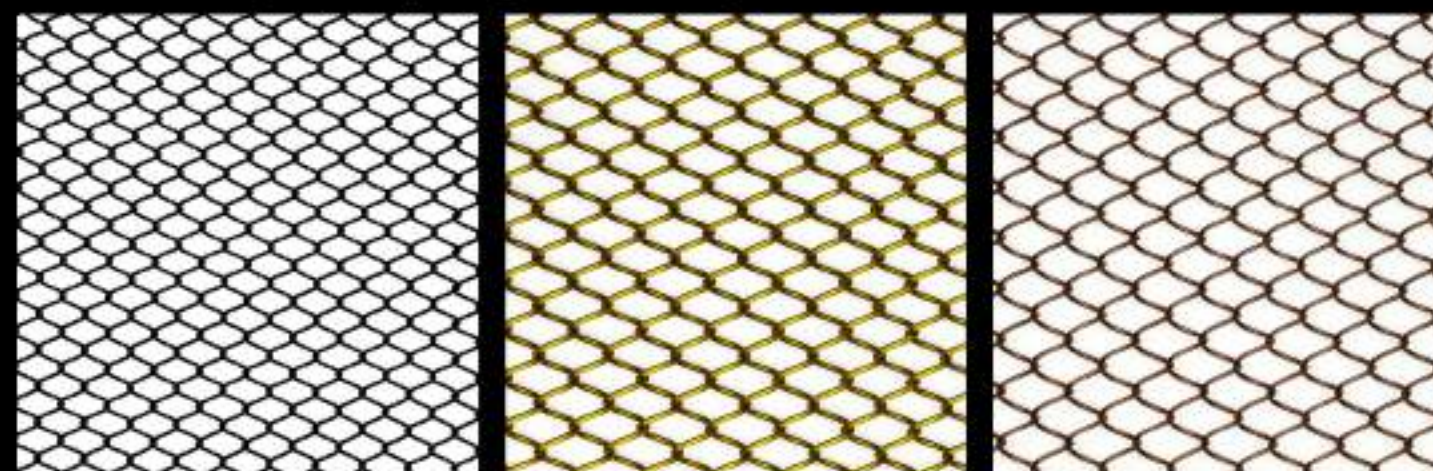

Material: Aluminum alloy, stainless steel wire, low-carbon steel wire

Aperture: 4mm, 6mm, 8mm, 10mm, 12mm

Wire diameter: 0.8mm, 1.0mm, 1.2mm, 1.5mm, 2.0mm

Finish: Painting, electroplating, or anodizing

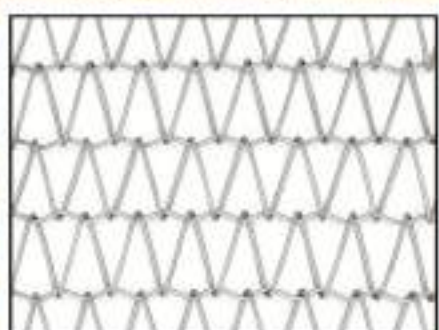

03 THREE V-SHAPED CURTAIN

V-shaped curtain, using high quality stainless steel wire or low carbon steel wire spiral woven. The surface has been polished or painted, with fire resistance, high temperature resistance, corrosion resistance, free stretching and other advantages.

Material, mesh, size, color and pattern can be customized. The maximum height can be up to 6 meters, any width can be done.

It is widely used in ceiling, partition, screen and other indoor and outdoor decoration.

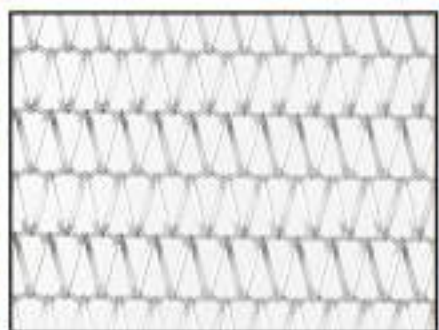

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 1.5mm/1.5mm
Cross/Spiral pitch: 13mm/8mm

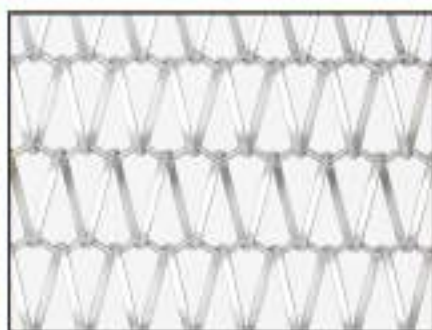

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 1.5mm/1.2mm
Cross/Spiral pitch: 16mm/6mm

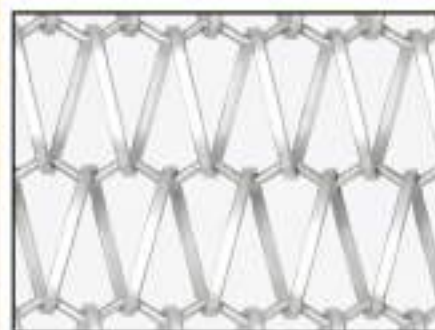

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 1.5mm/1.5mm
Cross/Spiral pitch: 13mm/11mm

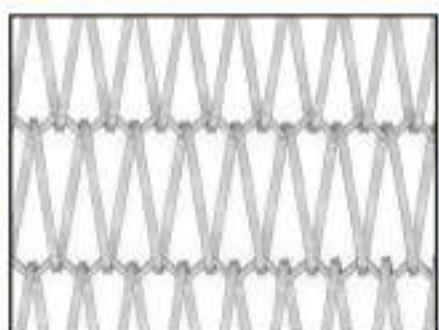

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 1.5mm/1*1.7mm
Cross/Spiral pitch: 17mm/8mm

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 2.0mm/1*2.5mm
Cross/Spiral pitch: 25mm/12mm

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 2.0mm/1*4mm
Cross/Spiral pitch: 30mm/15mm

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 3.0mm/1*6mm
Cross/Spiral pitch: 70mm/25mm

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 3.0mm/1.5*4mm
Cross/Spiral pitch: 35mm/30mm

Material: SS201, 302, 304, 316
Cross/Spiral diameter: 2.0mm/1*4mm
Cross/Spiral pitch: 15mm/10mm

YESON

04 FOUR METAL RING MESH

Metal ring mesh, made of high quality stainless steel wire, copper wire or low carbon steel wire. The surface has been polished or painted, with bright colors, fire resistance, high temperature resistance, corrosion resistance, arbitrary modeling and other advantages.

Material, ring diameter, size, color and pattern can be customized, any size can be done.

It is widely used in ceiling, screen, partition, protection and so on.

06 SIX METAL WALL COVERING

Metal wall covering is weaved by high quality copper wire, silver wire or stainless steel wire. After special coloring treatment, the surface has the advantages of good gloss, rich color, novel patterns, light weight and so on. Materials, sizes, color and pattern can be customized. The maximum width is 4 meters, and any length can be done. It is widely used in partition, screen, wall cloth, murals and other indoor decoration, and also can be made into laminated glass.

07 SEVEN ALUMINUM MESH CLOTH

Aluminum mesh cloth non-toxic, recyclable, soft and light, uniform and bright color, its natural surface state has a pleasant appearance, but also can be colored or dyed texture patterns. The surface of the aluminum mesh is highly reflective. Visible light, radiant heat and electric wave can be effectively reflected by the aluminum mesh cloth, so it has a variety of decorative purposes and uses with reflective function.

Aluminum mesh cloth is mainly used to make a variety of fashion bags, jewelry, a variety of women's clothing, accessories materials used widely, can also be used in toys and decoration. In recent years, aluminum mesh cloth has become a popular building decoration material.

Punching art mesh is made of high quality low carbon steel sheet, galvanized steel sheet, aluminum sheet or stainless steel sheet, with round hole, square hole, triangle hole, hexagonal hole, special-shaped hole and so on. The surface after polishing or coloring treatment. It can be matched with different scenes, and has good permeability and sound absorption effect.

Material, plate thickness, hole shape and pattern can be customized, the maximum width is 1.5 meters, and the maximum length is 5 meters. It is widely used in ceiling, partition, screen, interior and exterior wall decoration, fence, landscape and industrial filtering, etc.

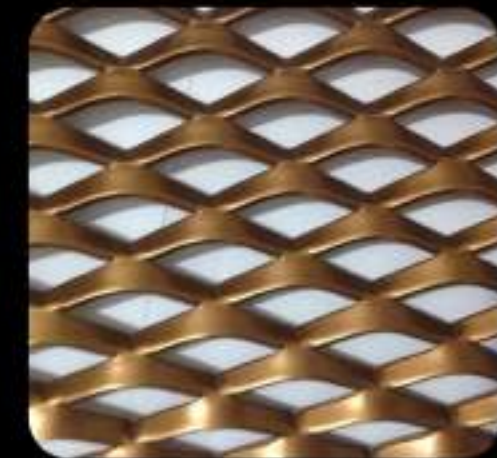

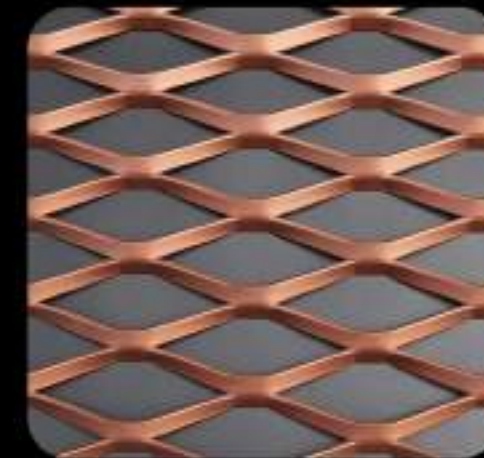

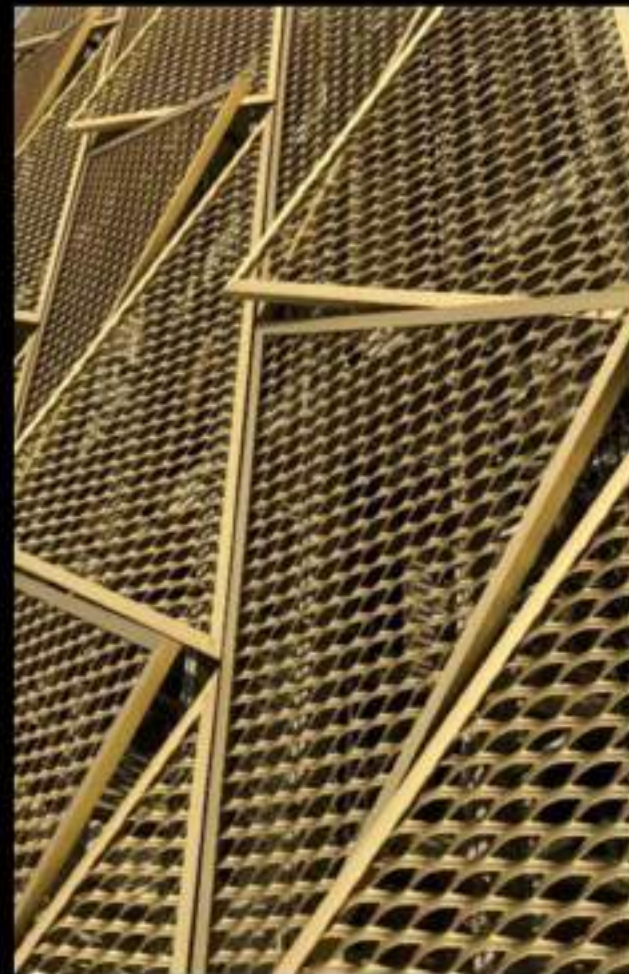

It is made of high quality aluminum plate, low carbon steel plate or stainless steel plate after stamping and drawing. The surface can be colored or oxidized to different colors. It has the advantages of beauty, no rust, light weight, environmental protection and recyclability, etc.

Material, plate thickness, hole shape and pattern can be customized, the maximum width is 2.5 meters, and any length can be done.

It is widely used in ceiling, partition, screen, interior and exterior wall decoration and fence, etc.

10 STEEL CABLE MESH

Steel cable mesh is produced by high quality stainless steel wire 304, 304L, 316, or 316L. It has two connection modes of Buckle and weave. The mesh size is from 20mm to 300mm, or customized as request. The normal length is 10meters, and any width can be done. It also can be made into different colors.

Steel cable mesh is an innovative protective product, widely used in zoos, plant climbing, balcony protection, stair protection, bridge protection, road protection, fall protection, building protection and architectural decoration, etc.

Mesh opening	2cm-20cm
Cable diameter	1.2mm-4.0mm
Other sizes	Support for customization
